Student Name	sanjay kumar	Student ID	500231402
Company Name	lion healthcare	Address	151 young street, 11th floor- toronto, on. m5c
Company Phone	+14374845862	Company Email	harleen.kaur@lionhealthcare.ca
Date	12-05-2025	Student Signature	sanjay kumar

Using the scale below to indicate your evaluation of the student's overall attitude and professional performance.

E	Excellent	Consistently exceeds expectations for performance
G	Good	Sometimes exceeds expectations for performance
S	Satisfactory	Meets expectations for performance
NI	Needs Improvement	Needs to improve performance
U	Unsatisfactory	Does not meet expectation for performance
N/A	Not Applicable	Not required by the position
	Comments	Please provide examples to support your ratings and suggestions on how the student could improve their performance

Attitude

Innovative	E	Receptive	G
Takes Initiative	E	Exhibits Effort	E
Punctual	G	Enthusiastic	G
Accurate	S	Follows Instructions	G
Follows through	G	Communicates Well	S

Professional Skills

Knowledge of Business Processes	G
Familiarity with equipment	G
Ability to understand industry jargon	G
Level of technical knowledge required for the field	G

Final Questions:

1. What do you consider to be the student's strength?

The student has a strong technical mindset and picks things up quickly. He show real curiosity when learning new cloud concepts and handle different tasks with confidence. His problem-solving skills stand out, especially when working with Azure and related tools. He communicate clearly, work well with others, and consistently finish his assignments accurately and on time. Overall, he is showing impressive growth and real potential in cloud computing.

2. Was the student able to meet your overall expectations? If not, why?

Yes, the student consistently met expectations throughout the co-op term. He completed his tasks on time, showed steady growth in his cloud skills, and was always open to learning. He was reliable, took feedback well, and applied new concepts effectively. His performance and professionalism were fully in line with what the role required.

3. Do you have any suggestions for areas of improvement or growth for the student?

The student has shown solid progress, but continuing to grow in a few areas will help him advance further. Building more confidence with automation tools like PowerShell or Terraform will strengthen his technical skills. Getting additional hands-on experience with cloud security best practices and advanced networking concepts would also be valuable. Improving his documentation and troubleshooting methods will help him take on more complex tasks independently. Overall, he ' s moving in the right direction and would benefit from deepening his technical expertise.

4. Was the co-op length sufficient for the duties required?

Yes, the co-op term was long enough for the responsibilities of the role. He had sufficient time to learn the required tools, complete his tasks, and gain meaningful hands-on experience in cloud computing. The duration supported steady progress, skill development, and smooth integration into the teams workflow.
